

Miniature Square LED Indicator Push Button Switch

This miniature square LED indicator push button switch integrates a push button with an LED indicator. It is designed for use in industrial and commercial applications for clear signaling and reliable switching.

Overview

Specializing in production of buttons and indicators since 1997

Compact and robust design for high-visibility industrial signaling.

Miniature Square LED Indicator

The XDL16-CFXD series is a professional-grade 16mm square LED indicator and push button switch designed for industrial control applications. Constructed with durable zinc alloy and high-grade anti-flame plastics, it provides reliable performance in control circuits up to 660V AC. Featuring high-visibility LED illumination, these units are ideal for signaling, warning, and emergency systems.

Technical Specifications

Rated Insulation Voltage	600 V
Conventional Heating Current	10 A
Insulation Resistance	e5M©
Contact Resistance	d25©
Withstand Voltage	AC 2.5KV/min

Dimensions

XDL16-CFXD

Installed
Light
Rectangular

LED
24V AC/DC
220V AC/DC

XDL16-CFXD

Dimensional specifications and power configuration for the XDL16-CFXD indicator lamp.

Mounting Diameter	16 mm
Face Dimensions	18x24mm

Environmental Ratings

Operating Temperature	-25°C to +50°C
Protection Grade	IP40, IP55

Compliance

Certifications
CE • ISO 9001 • RoHS • UL

Standards Met

- GB/T14048.1
- IEC60947-5-1
