

Mobile Diesel Generator for Power Distribution

This mobile diesel generator is designed for electric power distribution. It features a fully enclosed housing on a wheeled chassis, offering portability and protection.

Overview

Reliable Mobile Power Solution

This mobile diesel generator is engineered for efficient electric power distribution in demanding environments. Housed in a durable, fully enclosed unit mounted on a wheeled chassis, it offers exceptional portability and ease of transport. The design includes integrated ventilation grills and accessible maintenance doors, making it an ideal choice for both backup power applications and primary energy supply in remote locations.

Technical Specifications

Model Designation	MP1800-2250/12N
Portability Features	Wheeled Chassis, Mobile Unit, Fully Enclosed
Maintenance Access	Yes
Cooling System	Integrated Ventilation Grills

Applications

Primary Use Cases

- Backup Power Supply
- Remote Location Power
- Electric Power Distribution
