

Mobile Grain Dryer

This mobile grain dryer is designed for efficient drying of various grains and cereals. It features a multi-stage drying system with adjustable controls and durable construction for long-lasting use.

Overview

Efficient Grain Processing

This mobile grain dryer is engineered for the efficient processing of various grains and cereals, making it an ideal solution for small to medium-sized agricultural operations. It features a multi-stage drying system with adjustable controls, ensuring optimal performance and consistent results. Built with a robust chassis and integrated wheels, the unit provides excellent mobility for easy transportation and positioning across different farm locations.

Technical Specifications

Model Identifier	ARD 4500 - 2000 - 1.5
Drying System	Multi-stage
Mobility	Mobile, Robust Chassis, Wheeled

Operations

Control Features

- Adjustable drying parameters
- Precise monitoring
- Multi-stage control

Ideal Application

Small Farms • Medium-sized Farms • Agricultural Operations
