Overview

High-Performance Mobile Lighting

This professional-grade mobile LED lighting tower is engineered for demanding environments, including construction sites, emergency response, and large-scale events. Featuring a robust, telescopic, and foldable mast, it offers exceptional portability and rapid deployment. With advanced dusk-to-dawn automation and high-intensity output, it provides a reliable and efficient lighting solution for any outdoor application.

Model	RPLT-7200
Certifications	ISO, CE, SAA, Anti-Wind Certified

Lighting Performance

Lumen Output

261000 lm
Total Output

Lighting Configuration	6 x 480W SAA Certified LED Lamps
Colour Temperature	2100K - 5700K

Operational Features

Automation	Dusk-to-Dawn Auto Start/Stop Timer
Communication	SMS Communication Technology
Service Life	3 Years

Design & Build

Key Design Features

Telescopic Mast • Foldable • Portable • Heavy Duty
