

Mobile Magazine Display Stand with Wire Mesh Racks

This mobile magazine display stand features a sturdy metal frame and a powder-coated finish. It is equipped with smooth-rolling wheels and seven tiers of wire mesh racks for holding magazines and brochures.

Overview

Versatile Literature Display Solution

This mobile magazine display stand is designed for efficient literature organization and presentation in high-traffic environments. Featuring a robust metal frame with a durable powder-coated finish, it ensures long-lasting performance. With seven tiers of wire mesh racks, it provides ample space for magazines, brochures, and catalogs, while the smooth-rolling casters allow for effortless repositioning.
