

# Mobile Phone Accessories

These accessories enhance the functionality and style of mobile phones. They include a variety of options for protection, personalization, and convenience.

## Product Overview

### High-Performance Deep Groove Ball Bearings

These deep groove ball bearings are engineered for reliability and precision in demanding industrial applications. Available in various configurations including open, Z, ZZ, RS, and 2RS, they offer versatile sealing options to protect against contaminants while maintaining optimal lubrication. Each unit is built to withstand specific static and dynamic loads, ensuring smooth operation and long service life across a wide range of rotational speeds.

## Technical Specifications

### Dimensional and Performance Data

Bearing No.	Inner d (mm)	Outer D (mm)	Width B (mm)	Weight (kg)
6300	10	35	11	0.0532
6305	25	62	17	0.22
6310	50	110	27	1.08
6315	75	160	37	3.05
6320	100	215	47	7

### Available Configurations

Open, Z, ZZ, RS, 2RS

## Performance Metrics

### Load Capacity Range

**7.65 kN**

Min Dynamic Load (C)

**133.2 kN**

Max Dynamic Load (C)
