

Mobile Phone Lithium Battery

This is a high-performance lithium battery designed for mobile phones. It provides reliable power and long-lasting performance.

Overview

High-Performance Lithium Battery

This high-performance lithium battery is specifically designed to provide reliable power and long-lasting performance for mobile devices. Engineered with advanced technology, it ensures efficient charging cycles and extended battery life. It serves as an ideal replacement or spare power source for professional communication needs.

Technical Specifications

Capacity

1600 mAh

Capacity

Battery Chemistry

Lithium-ion

Model Identifier

L17884356A
