

Mobile Phone Mirror Screen Protector Film

This screen protector film is designed for mobile phones, providing a protective layer against scratches and smudges. It also features a reflective surface that can be used as a mirror.

Product Overview

Innovative Dual-Function Screen Protection

This premium mirror screen protector offers a unique combination of device security and functional aesthetics for mobile phones. It provides a robust protective layer against everyday wear such as scratches and smudges while maintaining full touch sensitivity and screen clarity. When the screen is inactive, the film doubles as a convenient, high-quality mirror for quick adjustments, making it a stylish addition to any mobile device.

Technical Features

Surface Properties	Reflective Mirror Finish, Scratch Resistant, Smudge Resistant, Touch Responsive
