

Mobile Stainless Steel Wash Basin

This mobile wash basin features a circular stainless steel sink. It is mounted on a stainless steel stand with caster wheels and a lower shelf for supplies.

Overview

Mobile Industrial Wash Station

This mobile stainless steel wash basin is designed for demanding industrial and commercial environments where hygiene and flexibility are paramount. The unit features a robust, circular basin mounted on a sturdy stainless steel tubular frame, ensuring long-term durability and resistance to corrosion. Equipped with four swivel caster wheels, this station provides effortless mobility, allowing it to be repositioned easily to meet changing workflow requirements.
