Overview

Mobile Sugarcane Juice Vending Cart

This revolutionary mobile sugarcane juice vending cart is engineered for high-performance commercial use. It features an advanced extraction process with a gearshift motor that optimizes speed based on sugarcane diameter, achieving up to 85% extraction yield in a single pass. Designed for hygiene and efficiency, the unit includes an integrated chilling system, a freezer for ingredient storage, and a user-friendly cleaning tap.

Technical Specifications

Production Capacity	400 kgs/h
Motor Power	0.75 KW
Max Stalk Diameter	2.25 inches
Extraction Yield	80%-85%

Features

Operational Metrics

90 % Noise Reduction	150 pcs Freezer Storage Capacity	3 °C Min Cooling Temp
--------------------------------	--	---------------------------------

Key Advantages

Food Grade Components, Quiet Operation, Integrated Chiller, Integrated Freezer, Stainless Steel Rollers, Marble Countertop

Design and Build

Dimensions

Model	Height
ZJ190	1503mm
ZJ190A-D	2300mm
