Overview

Mobile Power Solutions

Mobile diesel generator sets are engineered for versatile field applications, providing reliable prime or backup power for construction, telecommunications, and civil industries. These units feature a robust, trailer-mounted design that ensures maneuverability across various terrains while maintaining a compact footprint. Equipped with soundproof canopies and weather-resistant casings, they are built to perform continuously in demanding environments, offering essential features like large-capacity fuel tanks and quick-plug power outputs.

Performance & Capability

Power Output Range

8 KVA Minimum Power	4000 KVA Maximum Power
-------------------------------	----------------------------------

Continuous Run Time

8 hours

Design & Mobility

Wheel Configuration

- Two-wheel
- Four-wheel
- Six-wheel
- Eight-wheel

Chassis & Mobility

Flexible draw-bar, Manual brakes, Pneumatic brakes, Hydraulic brakes, Hydraulic support legs, Traffic warning signs

Operational Features

Environmental Protection

- Soundproof canopy
- Weather-resistant casing
- Heavy-duty air filter
- Motor dust-proof device
- Air heating device
- Water jacket preheating

Compliance & Warranty

Certifications

ISO 8528 • CE • ISO 9001

Commercial Terms

Term	Details
Delivery Time	4-6 weeks
Minimum Order	1 set
Payment Terms	30% T/T advance, 70% before shipment
Warranty Period	1 year or 1000 running hours
