

Mobile TV Stand with Adjustable Height

This is a steel mobile cart with a coating finish. It features adjustable height and locking caster wheels.

Product Overview

Professional Mobile AV Cart

This versatile mobile TV stand provides a reliable solution for professional audiovisual setups, accommodating displays ranging from 40 to 60 inches. Engineered with a durable steel frame and a premium coated finish, it supports up to 100 lbs while ensuring smooth mobility via integrated caster wheels. The adjustable height mechanism and universal VESA compatibility make it an ideal choice for offices, classrooms, and conference rooms.
