

Modern Gymnasium Building with Curved Roof

This is a modern gymnasium building featuring a curved roof design and extensive glass facade. It is situated next to a sports field with stepped seating areas.

Product Overview

Modern Athletic Facility Design

This modern gymnasium building features a distinctive curved roof architecture designed to maximize interior volume and natural light. The structure incorporates an extensive glass facade, creating an open and inviting atmosphere suitable for various athletic activities. Ideally suited for educational or community sports complexes, the design seamlessly integrates with outdoor sports fields and tracks.
