Overview

High-Performance Modular Conveyor Belt

This modular plastic conveyor belt is engineered specifically for the rigorous demands of the beverage and food processing industries. It features a robust design that supports heavy loads while offering excellent resistance to wear, chemicals, and temperature fluctuations. With a maintenance-free structure and easy-to-clean properties, this belt helps optimize production efficiency and ensures high standards of hygiene in manufacturing environments.

Technical Specifications

Available Colors

White • Blue • Gray • Nature • Dark-brown

Pitch	25.4 mm
Thickness	8.6 mm
Minimum Width	85 mm
Rod Diameter	4.5 mm
Open Area	0%
Available Materials	PP, POM, PE, PA

Performance & Features

Maximum Load Capacity

1.2 tons/m²

Max Load

Design Features

- Floating in water
- Food defrosting capable
- Maintenance free
- Easy to clean

Working Temperature

-40°C to 260°C

Certifications

FDA, EU Approved

Compatibility

Sprocket Configuration

Component	Specification
Sprocket Sizes	12T-2R, 18T-2R, 20T-2R
Bore Types	Square, Round

Applications

Industry Applications

- Meat & Poultry
- Seafood
- Bakery
- Snack Food
- Fruit & Vegetables
- Automotive
- Packaging
- Printing/Paper
- Can Manufacturing
