

# Modular Plastic Conveyor Belt for Packing

This modular plastic conveyor belt is designed for the packing industry. Its modular design allows for easy assembly and maintenance, and its durable plastic construction ensures a long service life.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Modular Conveyor Belt

This modular plastic conveyor belt is designed for demanding industrial packing environments, offering exceptional durability and operational efficiency. Its modular construction allows for rapid assembly, easy maintenance, and localized repairs, which significantly reduces downtime compared to traditional belt systems. Engineered with food-grade materials and a robust load capacity, it provides a reliable, hygienic, and smooth transport surface for various automated production lines.

## Technical Specifications

Model Type	HS-1500A-HD
Pitch	12.7 mm
Thickness	10 mm
Minimum Width	76 mm
Open Area	0%
Rod Diameter	4.5 mm
Working Temperature Range	-40°C to 260°C

## Materials and Compliance

### Available Colors

White • Blue • Gray • Nature • Dark-brown

Material Options	PP, POM, PE, PA
Certifications	FDA, EU

## Features and Capabilities

### Maximum Load Capacity

**1.2 tons/sqm**

Max Load

### Design Features

- Floating in water capability
- Food defrosting compatible
- Maintenance-free design
- Easy to clean
- High load capacity

### Configuration Constraints

- No Flight
- No Side Guard
- No Curve

## Application

### Industry Applications

Sector	Industries
Food Industry	Meat, Poultry, Sea Food, Bakery, Snack Food, Fruit & Vegetables
Non-food Industry	Automotive, Tire, Packaging, Printing, Postal, Cardboard, Can, PET, Textile
