

Modular Plastic Conveyor Belt for Paper Transport

This modular plastic conveyor belt is designed for transporting original paper. Its construction ensures durability and a long lifetime, offering a maintenance-free solution that minimizes pollution and improves quality.

Overview

High-Performance Modular Conveyor Belt

This modular plastic conveyor belt is engineered for demanding industrial environments, particularly in paper transport and food processing applications. Its robust design provides exceptional durability, offering a significantly longer service life compared to traditional belt systems. With a maintenance-free construction and high load capacity, it ensures operational efficiency and consistent performance across diverse manufacturing sectors.

Technical Specifications

Maximum Load Capacity

1.2 tons/m²

Load Capacity

Pitch	63.5 mm
Thickness	32 mm
Minimum Width	200 mm
Rod Diameter	10 mm
Open Area	0%
Operating Temperature	-40°C to 260°C

Configuration

Available Colors

White • Blue • Gray • Nature • Dark-brown

Sprocket Dimensions

- Sprocket Sizes: 10T, 13T, 15T
- Bore Types: Square bore, Round bore

Available Materials

PP, POM, PE, PA

Compliance & Features

Key Features

- Floating in water
- Food defrosting compatible
- Maintenance-free
- Easy to clean

Certifications

FDA, EU Approved

Applications

Compatible Industries

Sector	Applications
Food Industry	Meat, Poultry, Seafood, Bakery, Snacks, Produce
Non-Food Industry	Automotive, Tire, Packaging, Printing, Paper, Postal, Corrugated, Can, PET, Textile
