Product Overview

Modular Plastic Conveyor Belt for Spiral Systems

This modular plastic conveyor belt is engineered specifically for use in spiral conveyor applications, providing reliable and efficient transport. Its durable construction offers excellent resistance to wear, chemicals, and extreme temperature variations ranging from -40°C to 260°C. Designed for versatility, this system supports various industrial needs, from food processing to heavy-duty manufacturing, while ensuring easy maintenance and sanitation.

Technical Specifications

Max Load Capacity

1.2 tons/m²

Maximum Load

Pitch	19.05 mm
Minimum Width	400 mm
Open Area	0 %
Working Temperature	-40°C to 260°C

Design & Materials

Available Colors

White • Blue • Gray • Nature • Dark-brown

Key Design Features

- Curve capable
- Floating in water
- Food defrosting compatible
- Maintenance free
- Easy to clean

Material Options

PP, POM, PE, PA

Approvals

FDA, EU

Applications

Industry Suitability

Category	Industries
Food Industry	Meat, Poultry, Sea Food, Bakery, Snack Food, Fruit & Vegetables
Non-food Industry	Automotive, Tire, Packaging, Printing, Postal, Cardboard, Can & PET Manufacturing, Textile
