

# Modular Plastic Conveyor Belt with Nub Top

This modular plastic conveyor belt features a nub top surface for enhanced grip during conveyance. Constructed from food-grade plastic, it is easy to clean and sanitize for hygienic transport of meat and seafood products.

## ADDITIONAL IMAGES

## Overview

### High-Performance Modular Conveyor Belt

This modular plastic conveyor belt features a specialized nub top surface designed to provide superior grip and product stability, making it ideal for the meat and seafood processing industries. Engineered for durability and hygiene, the belt is compatible with food-grade standards and offers easy maintenance through its modular design. With a high load capacity of up to 1.2 tons per square meter, it is built to withstand demanding industrial environments while facilitating efficient cleaning and sanitation processes.

## Technical Specifications

### Physical Dimensions

Specification	Value
Pitch	50.8 mm
Thickness	19 mm
Minimum Width	150.3 mm
Rod Diameter	5.8 mm

### Operating Parameters

**27 %**

Open Area

**1.2 tons/m<sup>2</sup>**

Max Load Capacity

Operating Temperature

-40°C to 260°C

## Design & Materials

### Available Colors

White • Blue • Gray • Nature • Dark-brown

### Key Features

- Nub Top Surface
- Flight Included
- Floating in water
- Food defrosting capable
- Maintenance-free

### System Compatibility

- Sprockets: 6T, 8T, 10T, 12T (Standard and N-series)
- Bore Types: Square and Round

### Available Materials

PP, POM, PE, PA

## Compliance & Applications

### Industry Applications

- Meat & Poultry Processing
- Seafood Processing
- Bakery & Snack Food
- Fruit & Vegetable Processing
- Automotive & Tire Manufacturing
- Packaging & Printing
- Postal & Logistics

### Certifications

FDA Approved, EU Approved
