Overview

High-Performance Modular Conveyor Belt

This modular plastic conveyor belt is engineered for versatile logistics and industrial applications. It features a robust, maintenance-free design that significantly extends service life compared to traditional belts. With food-grade material options and high load capacity, it is an ideal solution for both food processing and heavy-duty manufacturing environments.

Physical Dimensions

Pitch	25.4 mm
Thickness	12.5 mm
Minimum Width	76 mm
Rod Diameter	4.9 mm

Technical Specifications

Max Load Capacity

1.2 tons/m²
Max Load

Open Area	0 %
Working Temperature	-40°C to 260°C

Construction & Material

Regulatory Compliance

FDA Approved • EU Compliant

Available Materials

PP, POM, PE, PA

Colors

White, Blue, Gray, Nature, Dark-brown

Configuration & Features

Sprocket Configuration

Feature	Details
Sprocket Sizes	12T, 15T, 19T-Split
Bore Types	Square, Round

Design Features

- Flight: No
- Side Guard: No
- Curve: No

Applications

Suitable Industries

- Meat & Poultry Processing
- Seafood Processing
- Bakery & Snack Food
- Fruit & Vegetable Handling
- Automotive & Tire Manufacturing
- Packaging & Printing
- Postal & Logistics
