

# Molded Case Circuit Breaker 125A-1250A

This thermal fixed type MCCB is designed for industrial circuit protection. It is suitable for use in circuits with rated voltage below 690V and rated working current up to 800A for infrequent transformation and infrequent starting of motors.

## ADDITIONAL IMAGES

## Overview

Electrical wiring diagram illustrating standard connection points.

## Industrial Circuit Protection

This thermal fixed type molded case circuit breaker (MCCB) is engineered for reliable circuit protection in industrial power distribution systems. Designed for AC 50Hz applications, it supports a rated insulation voltage of 800V and handles circuits with rated voltages below 690V. The unit is suitable for infrequent power transformation and motor starting, ensuring robust performance and safety in demanding electrical environments.

## Electrical Ratings

Rated Current Range	125A - 1250A
Rated Insulation Voltage (Ui)	800 V
Rated Impulse Withstand Voltage (Uimp)	8 kV
Rated Frequency	50Hz

## Performance Metrics

### Breaking Capacity Specifications

Level	Icu (kA)	Ics (kA)
L	36	27
M	50	36

### Endurance Cycles

**8500 cycles**

Mechanical Endurance

**1500 cycles**

Electrical Endurance

## Configuration

Detailed dimensional diagram for installation planning.

### Trip Mechanism

Fixed Magnetic Trip

### Number of Poles

3-Pole, 4-Pole

## Compliance

### Standards Compliance

IEC 60947-2
