

# Molded Case Circuit Breaker

This molded case circuit breaker is designed for residential and commercial electrical protection. It utilizes thermal-magnetic trip technology for reliable overload and short-circuit protection and is suitable for panelboard mounting.

## ADDITIONAL IMAGES

## Product Overview

### Reliable Circuit Protection

These molded case circuit breakers are engineered for both residential and commercial electrical protection. Utilizing thermal-magnetic trip technology, they provide dependable safeguards against overloads and short circuits. Designed for seamless panelboard mounting, these units ensure safe and efficient power distribution for various electrical systems.

## Electrical Specifications

Rated Current	30 A
Trip Technology	Thermal-magnetic
Protection Types	Overload, Short-circuit

## Mechanical & Installation

### Available Configurations

- Single pole
- Double pole

Mounting Type	Panelboard
---------------	------------

## Applications

### Suitable Environments

Residential • Commercial • Industrial
