

Molded Case Circuit Breaker 63-800A

This molded case circuit breaker is designed for AC power distribution systems. It provides protection against overloads and short circuits.

Product Overview

Professional Power Distribution Protection

The ZKZ2 series moulded case circuit breaker is engineered for reliable performance in low-voltage networks. Designed to handle currents ranging from 63A to 800A, it provides robust protection for power distribution systems and squirrel-cage motors. With compliance to international standards like IEC 60947-2, this breaker offers consistent overload and short-circuit protection for mission-critical electrical installations.

Technical Parameters

Product introduction

Close-up view of the ZKZ2 series miniature molded case circuit breaker with key specifications visible.

Rated Current Range

- 63
- 100
- 225
- 400
- 630
- 800

Operational Voltage	400 V
Rated Insulation Voltage	690 V
Impulse Withstand Voltage	6 kV
Rated Frequency	50 Hz

Performance Metrics

Breaking Capacity

35 kA

Ultimate (Icu)

25 kA

Service (Ics)

Compliance Standards	IEC 60947-2, GB 14048.2
----------------------	-------------------------

Accessories

Supported Accessories

- Front panel wiring
- Plug-in type
- Auxiliary contact
- Shunt release
- Alarm contact
- Under-voltage release
- Electrical operating mechanism
- Rotary handle mechanism
