

# Molded Case Circuit Breaker AC400V

This molded case circuit breaker is designed for AC400V applications. It provides circuit protection and conforms to IEC60947-2 standards.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Circuit Protection

The YCM7 series is a next-generation Molded Case Circuit Breaker (MCCB) engineered for reliable power distribution in AC 50Hz networks. It provides comprehensive protection against overloads, short circuits, and undervoltages to safeguard critical electrical facilities. With a robust design that supports both vertical and horizontal installation, this breaker is an ideal solution for industrial and commercial distribution systems.

## Technical Specifications

### Operational Data

Feature	Specification
Rated Frequency	50/60 Hz
Max Rated Current	800 A
Installation	Vertical/Horizontal
Category	Cat. B

### Status Indicators

- ON/OFF Indicator
- Trip Indicator
- Alarm Status
- Work Status

### Certifications
