

Molded Case Circuit Breaker for Power Distribution

This molded case circuit breaker is designed for circuit protection in industrial and commercial applications. It offers overload and short-circuit protection.

Overview

Industrial Circuit Protection

This molded case circuit breaker is engineered for reliable power distribution in both industrial and commercial environments. It provides essential overload and short-circuit protection, ensuring system safety and operational continuity. With a compact design and high breaking capacity, it offers a robust solution for a wide range of voltage and current requirements.

Technical Specifications

Rated Current

100 A

Rated Current

Model Identifier

NF63-CSV

Standards Compliance

IEC60947-2

Breaking Capacity

Breaking Capacity Matrix

Voltage Type	Voltage	Capacity
AC	220V	25kA
AC	415V	18kA
AC	500V	7.5kA
AC	690V	5kA
DC	250V	25kA
DC	500V	7.5kA

Features

Protection Capabilities

- Overload protection
- Short-circuit protection
