

Molded Pulp Egg Tray with 30 Compartments

This molded pulp egg tray features 30 individual compartments for secure egg storage. Designed for organizing eggs in refrigerators or transporting them safely, the tray is a practical and eco-friendly solution.

Overview

Sustainable Egg Packaging Solution

This 30-compartment egg tray is crafted from molded pulp material, offering a durable and eco-friendly solution for safe egg storage and transportation. Designed for versatility, these trays are ideal for organizing eggs in refrigerators, pantries, or for professional use at farmers' markets. The protective design ensures efficient handling while maintaining the integrity of the contents during transit.
