

Monitor and Peripherals Adapter

This adapter is designed for use with monitors and other computer peripherals. It provides a secure and reliable connection.

Overview

High-Quality Monitor and Peripherals Adapter

This adapter is engineered for seamless integration with monitors and various computer peripherals, ensuring a secure and reliable connection. Constructed with high-quality materials, it is designed for durability and optimal signal transmission in professional environments. Its robust design guarantees long-lasting performance, making it an essential component for stable hardware setups.

Technical Specifications

Connection Method

Solderless

Connector Type

F Quick Male

Performance & Build

Key Features

- High-quality material construction
- Optimal signal transmission
- Robust design for durability
- Long-lasting performance

Application

Compatible Devices

Monitors, Computer Peripherals
