Product Overview

High-Precision Mono-Block Design

This professional-grade vernier caliper features a robust mono-block construction, engineered to provide superior rigidity and long-term measurement stability. It is a versatile 4-way measurement tool capable of handling internal, external, depth, and step measurements with high consistency. Designed for demanding environments in engineering, machine shops, and quality control labs, it is available in durable stainless steel or carbon steel configurations.

Technical Specifications

Measuring Ranges

- 100 mm
- 125 mm
- 150 mm
- 200 mm
- 300 mm

Measurement Types

Internal, External, Depth, Step

Material Composition

Stainless Steel, Carbon Steel

Calibration Data

Standard Calibration Options

| Range | Graduation (Metric) | Graduation (Imperial) |
|-------|---------------------|-----------------------|
| 100mm | 0.02mm | 0.001" |
| 125mm | 0.02mm | 0.001" |
| 150mm | 0.02mm | 0.001" |
| 200mm | 0.02mm | 0.001" |
| 300mm | 0.02mm | 0.001" |

Additional Available Graduations

- 0.05 mm
- 0.05 mm / 1/128"
