

# Mono-Crystalline Solar Panel Module

This mono-crystalline solar panel module is designed for solar power generation. It features durable construction and optimized energy conversion for reliable performance.

## Overview

### High-Efficiency Solar Power Generation

This mono-crystalline silicon module is engineered for optimal energy conversion and reliable performance across diverse environmental conditions. Designed for versatility, it is suitable for residential, commercial, and industrial solar power applications. The module prioritizes maximum power output and long-term structural stability for sustainable energy projects.

## Performance Metrics

### Power Output Range

**235 W**

Minimum Power

**265 W**

Maximum Power

## Technical Details

Cell Technology	Mono-Crystalline Silicon
Model Series	JAM6 60

## Applications

Suitable Applications	Residential, Commercial, Industrial
-----------------------	-------------------------------------
