Overview

Reliable Outdoor Security Lighting

This motion-activated LED security floodlight is engineered for durability and high-efficiency performance in demanding outdoor environments. Featuring a robust die-cast aluminum housing and a wet-location rating, it ensures long-term reliability for both residential and commercial security needs. With an impressive lifespan of over 50,000 hours and adjustable motion sensing technology, this fixture combines energy savings with enhanced safety and convenience.

Performance Metrics

Key Performance Indicators

110 lms/W

Luminous Efficiency

50000 hours

Lifespan

0.9

Power Factor

Technical Specifications

Power Options

- 10W
- 20W
- 30W

Color Temperature (CCT)

- 3000K
- 4000K
- 5000K
- 5700K

Voltage	120V AC
LED Type	SMD2835
Operating Temperature	-40 to +50

Physical & Design

Available Finishes

Brown • Black • Grey • White

Housing Material	Die-casting Aluminum
------------------	----------------------

Compliance & Warranty

Certifications	cETLus, Energy Star, IES File
Warranty	5 Years

Features

Product Features

- Motion Sensor Function
- Wet Location Suitable
- High Efficiency Lumen Output
