Product Overview

Motion Sensor LED Downlight

This versatile LED downlight is designed for both indoor and outdoor applications, offering reliable illumination with integrated motion sensing technology. Featuring a durable aluminum and PC construction with an IP65 protection rating, it is built to withstand various environmental conditions. With multiple power options and a sleek, low-profile design, this fixture is an ideal solution for enhancing safety and security in both residential and commercial spaces.

Technical Specifications

Performance Highlights

80 lm/W

Luminous Efficacy

65 IP

Protection Rating

Motion Sensor Features

- Detection range: 4-10 meters
- Installation height: 2.2-4 meters
- Automatic illumination upon motion detection

Product Variants

Model Specifications

Power	Dimensions	Material
20W	182 x 48 mm	Aluminum + PC
30W	235 x 52 mm	Aluminum + PC
40W	292 x 55 mm	Aluminum + PC
30W	215 x 48 mm	Aluminum + PC
40W	265 x 55 mm	Aluminum + PC

General Information

Input Voltage	220-240V, 50/60Hz
Design Styles	Round, Square, Surface-mounted
