Product Overview

Smart Motion-Activated LED Lighting

This versatile motion sensor LED light offers a professional solution for automated, energy-efficient illumination in hallways, stairways, and entryways. Featuring a compact and modern design, the unit includes an integrated PIR sensor for reliable motion detection within 3 meters and dual brightness modes for customizable light levels. With a rechargeable 3.7V/2200mAh battery and magnetic mounting options, this light provides an easy, wire-free installation for diverse indoor environments.

Technical Specifications

Power & Performance

0.4 W

Power Rating

18 Hours

Battery Life

25 Seconds

Delay Time

Battery Specifications

- Type: Rechargeable
- Voltage: 3.7V
- Capacity: 2200mAh
- Recharge Time: 2.5-3 Hours

Luminous Flux Settings

Mode	Lumen Output
Low	10
High	35

Operation & Features

Sensor Technology	PIR (Passive Infrared)
Detection Distance	3 m
Available Modes	Low, High, Off

Physical Attributes

Dimensions	86 x 76 x 31 mm
Weight	120 g
Color Temperature	3000K
