

Motion Sensor Trash Can

This trash can offers hands-free operation thanks to its built-in motion sensor. It features a durable stainless steel construction and a removable inner bucket.

Product Overview

Hands-Free Waste Management

This automatic sensor trash can offers a hygienic and convenient waste disposal solution for modern environments. Featuring a high-quality brushed stainless steel finish, it combines durability with a sleek aesthetic suitable for professional or home settings. The motion-activated lid ensures a touchless experience, while the removable inner bucket simplifies maintenance and cleaning.
