

Motorcycle Analog Speedometer with Odometer

This motorcycle speedometer assembly is designed for CG125 FAN models. It features an analog speedometer gauge with a range up to 140 km/h, an odometer, and indicator lights.

Overview

High-Precision Analog Speedometer

This analog speedometer assembly is designed for reliable performance on motorcycles, specifically compatible with CG125 FAN models. It features high-precision measurement capabilities with strong anti-jamming protection to ensure accurate readings. Built for durability, the unit meets and exceeds international IEC standards for vibration resistance, waterproof, and dust-proof performance.

Technical Specifications

Max Speed

140 km/h
Max Speed

Durability Standards

Waterproof • Dust-proof • Vibration Resistant • IEC Compliant

Compatible Models

CG125, FAN

Features

Integrated Indicators

- Neutral Light
- High Beam Light

Included Components

- Analog Speedometer Gauge
- Odometer
- Wiring Harness
- Connector
