Product Overview

High-Performance Roller Chain

This precision-engineered roller chain is designed for diverse motorcycle and automotive applications, ensuring smooth and reliable power transmission. Constructed from high-strength materials, it offers exceptional durability and resistance to wear under demanding operational conditions. With a wide range of available models, these chains are trusted by professional buyers across international markets for their consistent performance and efficiency.

Technical Specifications

Primary Applications

- Motorcycles
- Automotive drive systems
- Precision machinery

Available Models

415H, 415HO, 420, 420H, 428, 428H, 428HH, 520, 520H, 520HO, 520HV, 525H, 525HO, 530, 530H, 630

Market Reach

Export Markets

Latin America • Middle East • Africa • Southeast Asia

Countries Served

20 countries
