

Motorcycle Battery

Motorcycle batteries provide the necessary power for starting and running various motorcycle models. These batteries are compatible with 50cc to 150cc motorcycles.

Overview

High-Performance Motorcycle Batteries

These motorcycle batteries are engineered to provide reliable starting power and consistent performance for a wide range of two-wheeled vehicles. Designed to support engine displacements from 50cc to 150cc, they offer broad compatibility across various scooter and motorcycle models. Built for durability and dependable ignition, these batteries are essential components for maintaining optimal vehicle operation.

Technical Specifications

Engine Displacement Compatibility	50cc - 150cc
Available Model Variants	CB4L-B, 12N5-3B, 12N7-3B, 12N7A-3A, 12N7E-3B, CB6.5L-A, 12N9-4B-1, MTX4L-BS

Compatibility

Model Compatibility Guide

Battery Model	Typical Application Examples
CB4L-B	50cc Scooters
12N9-4B-1	125cc - 150cc Motorcycles
CB6.5L-A	125cc Scooters
MTX4L-BS	125cc Scooters
