

Motorcycle Brake Pad Set

High-performance motorcycle brake pads ensure optimal stopping power and durability. The friction material compound provides consistent braking across various temperatures and riding conditions.

Product Overview

High-Performance Braking Solution

These motorcycle brake pads are engineered for optimal stopping power and long-term durability. Featuring a specialized friction material compound, they deliver consistent braking performance across a wide range of temperatures and riding conditions. The high-strength steel backing plate is powder-coated for superior corrosion resistance, ensuring a reliable and long-lasting component.

Technical Specifications

Backing Plate Material	High-strength steel with powder-coated finish
Key Performance Attributes	Heat Dissipation, Reduced Brake Fade, Corrosion Resistant, OEM Compatibility
Installation	Direct OEM replacement
