

Motorcycle Brake Pads for CG125 and AKT125

Motorcycle brake pads designed for CG125 and AKT125 models. These pads provide reliable stopping power and are constructed from quality materials for durability.

Product Overview

High-Performance Braking Solution

These high-performance brake pads are specifically engineered for CG125 and AKT125 motorcycles. Designed to deliver reliable stopping power and consistent performance, they ensure safe and efficient braking across various riding conditions. The construction utilizes high-quality materials to promote an extended lifespan and minimize brake fade, while the design ensures an optimal fit for straightforward installation.

Compatibility

Compatible Motorcycle Models	CG125, AKT125
