

Motorcycle CDI Unit

This is a CDI (Capacitive Discharge Ignition) unit for motorcycles. It controls the ignition timing and spark generation for optimal engine performance.

Product Overview

High-Performance CDI Unit

This CDI (Capacitor Discharge Ignition) unit is designed for 125cc motorcycles, providing reliable ignition timing and consistent engine performance. Engineered for classic motorcycle models, this component ensures efficient spark delivery for smoother operation. It is a critical replacement part for maintaining the mechanical integrity and reliability of your motorcycle's electrical system.

Technical Specifications

Compatible Engine	125cc
Component Type	CDI Unit (Capacitor Discharge Ignition)
Application	Motorcycle, Ignition System, Electrical Components
Model Series Compatibility	VG125-2 Series
