Product Overview

High-Performance Motorcycle Drivetrain Solution

This comprehensive motorcycle chain and sprocket kit is engineered for durability and reliable power transfer. The sprockets are crafted from heat-treated 45# steel, ensuring a service life exceeding 25,000 kilometers. The kit offers flexible configuration options, allowing users to select between standard, solid bush, or O-ring chain types to match specific performance and longevity requirements.

Technical Specifications

Available Chain Types

- Standard Chain
- Solid Bush Chain
- O-ring Chain

Material Composition

Component	Material
Sprocket	45# Steel
Standard Chain	45Mn
Solid Bush Chain	45Mn
O-ring Chain	50CrVA

Sprocket Material | 45# Steel (Heat-treated)

Performance Metrics

Service Life by Type

20000 kms

Standard Chain Life

25000 kms

Solid Bush Chain Life

50000 kms

O-ring Chain Life
