Product Overview

Performance-Oriented Design

These motorcycle clip-on handlebars are engineered for sportbikes and racing applications, focusing on improved handling and a more aggressive riding stance. Featuring a race-proven 3-piece design, they allow for easy service and installation without the need to remove the top triple clamp. Constructed from high-grade aluminum, they provide an optimal balance of strength and weight savings for demanding riders.

Technical Specifications

Available Lengths

- Standard: 12 inches
- Extra Long: 13.5 inches

Material Grade	6061-T6 Aluminum
