

Motorcycle Clutch Friction Plate for AX100

This motorcycle clutch plate is designed for AX100 models. It has a 3.05mm thickness and 111mm outer diameter.

Product Overview

High-Performance Friction Plate

This motorcycle clutch friction plate is engineered for reliable power transfer and smooth engagement. Constructed from premium A-class rubber and cork-based materials, it offers superior wear resistance and extended service life. It is an ideal replacement component for maintaining peak motorcycle performance across a wide range of compatible models.

Technical Dimensions

Outer Diameter	111 mm
Inner Diameter	83 mm
Thickness	3.05 mm

Quality & Compliance

Certifications

ISO/TS16949

Material Composition

A-class rubber and cork-based material
