

Motorcycle Cylinder Block for VESPA 150

This cylinder block is engineered for VESPA150 motorcycles, enhancing engine performance. It features a bore inner diameter of $\varnothing 62.6$ and a bore outer diameter of $\varnothing 73$, with an end face distance of 66.3 and a total height of 89.8.

Product Overview

High-Performance Cylinder Block

This precision-engineered cylinder block is specifically designed for VESPA 150 motorcycles, ensuring optimal performance and durability. Built to exact specifications, it offers a reliable replacement or upgrade solution for engine maintenance. The robust construction supports consistent power delivery and efficient engine operation.

Technical Specifications

Core Dimensions

62.6 mm

Bore Inner

73 mm

Bore Outer

89.8 mm

Total Height

Bore Inner Diameter	62.6 mm
Bore Outer Diameter	73 mm
End Face Distance	66.3 mm
Total Height	89.8 mm

Compatibility

Compatible Models	VESPA 150
