

Motorcycle Drive Chain and Sprocket Set

This motorcycle drive chain and sprocket set facilitates efficient power transfer. It features precision-machined components for smooth chain engagement and reduced wear.

Product Overview

High-Performance Drivetrain Component

This motorcycle drive chain and sprocket set is engineered for optimal power transfer and long-lasting durability. Constructed from high-strength, hardened steel alloy, the components feature precision-machined teeth designed to ensure smooth chain engagement and minimize wear. The set includes a lightweight design with strategic cutouts to reduce rotational mass, enhancing acceleration and heat dissipation for reliable performance under demanding riding conditions.

Technical Specifications

Material	Hardened steel alloy
Teeth Count	40 T
Finish	Gold finish, Corrosion resistant

Performance Features

Key Performance Metrics

40 T Tooth Count	100 % Corrosion Resistance
----------------------------	--------------------------------------

Design Advantages

- Precision-machined tooth profile
- Lightweight design for reduced rotational mass
- Enhanced heat dissipation
- Optimized for smooth chain engagement
