Product Overview

High-Performance Drive Sprocket

This high-strength motorcycle drive sprocket is engineered for optimal power transmission and long-lasting durability. Featuring precision-cut teeth, it ensures smooth chain engagement and significantly reduced wear during operation. The component is heat-treated to withstand demanding riding conditions and maintain performance over time.

Technical Specifications

Design Features

- Precision-machined tooth profile
- Lightweight construction
- Standard motorcycle hub compatibility

Material Grade	1045 Steel
Number of Teeth	14
Surface Finish	Heat-treated, Wear-resistant

Performance Metrics

Performance Highlights

14 T Teeth Count	1045 Steel Grade
