

Motorcycle Drive Sprocket

This motorcycle drive sprocket is engineered for optimal power transfer and exceptional durability. Its precision-engineered tooth profile ensures smooth chain engagement and reduced wear.

Product Overview

High-Performance Drive Sprocket

This high-performance motorcycle sprocket is engineered for optimal power transfer and long-term durability. Manufactured using precision CNC machining from 7075-T6 aluminum, it offers a superior strength-to-weight ratio. The precision-engineered tooth profile ensures smooth chain engagement, while the anodized finish provides excellent corrosion resistance and an enhanced aesthetic appeal.

Technical Specifications

Material	7075-T6 Aluminum
Manufacturing	CNC Machined
Finish	Anodized

Key Features

Performance Highlights

7075 T6
Material Grade

1 CNC
Precision

Key Advantages

- Optimal power transfer
- Lightweight construction
- Corrosion resistant finish
- Reduced wear tooth profile
