

Motorcycle Drive Sprocket

This motorcycle drive sprocket is constructed from high-strength 45# steel. It features precision-cut teeth for smooth chain engagement and optimal power transmission.

Product Overview

High-Performance Drive Sprocket

This high-strength motorcycle drive sprocket is engineered for optimal power transmission and long-term durability. Crafted from premium 45# steel and subjected to rigorous heat treatment, it offers superior hardness and abrasion resistance. Precision-cut teeth ensure smooth chain engagement and reduced drivetrain wear, making it an ideal choice for restoring or maintaining motorcycle performance.

Technical Specifications

Durability Features

- Ultra strong hardness
- Abrasion resistant
- Heat treated surface
- Corrosion resistant coating

Material Composition	A3/45# Steel
Certifications	ISO9001
