Product Overview

High-Performance Drive Sprocket

This high-strength steel motorcycle sprocket is engineered for optimal power transfer and exceptional durability. Precision-machined teeth ensure smooth chain engagement and reduced wear, while the hardened steel construction provides reliable performance under demanding riding conditions. Designed to meet or exceed OEM specifications, this component is ideal for enhancing acceleration and overall drivetrain efficiency.

Technical Specifications

Key Performance Metrics

1045 Grade

Steel Grade

42 T

Tooth Count Variant

Material 1045 Hardened Steel

Tooth Counts Available 42T, 43T
