Product Overview

High-Performance Drive Sprocket Systems

Engineered for durability and consistent power transmission, our motorcycle drive sprockets are available in a wide range of configurations to suit various popular drivetrain models. Each component is precision-manufactured with weight-reduction cutouts and high-strength metal construction to withstand the rigors of heavy motorcycle operation. Available in multiple finishes and tooth counts, these sprockets ensure smooth engagement and long service life.

Compatibility

Supported Models

CG125, CG150, AX100, CB125, BAJAJ, ACE CD125
