

# Motorcycle Engine Piston and Ring Kit for CG125 CG150 Engines

This motorcycle engine kit includes a piston and ring set designed for CG125 and CG150 engines. It is engineered to enhance engine performance and ensure optimal combustion.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Engine Kit

This comprehensive piston and ring kit is engineered specifically for CG125 and CG150 motorcycle engines. It is designed to enhance engine performance by ensuring optimal combustion and improved compression through a precision-engineered seal. Ideal for both routine maintenance and performance upgrades, this kit provides a reliable solution for 125cc Chinese motorcycle engine rebuilds.

## Technical Specifications

A complete engine performance kit including piston and specialized rings for CG series engines.

### Kit Components

- Piston
- Piston Rings
- Wrist Pin
- Circlips

### Engine Compatibility

CG125, CG150, 125cc, Chinese Engines

## Performance Features

**NIHAO** **TOP 10**  
Chinese Motorcycle Parts Brand  
10,000+ Items, High Quality, Low Cost

**CG 125 / 150**  
**Nihao Motor**

Precision-engineered piston rings designed for optimal oil control and compression sealing.

### Performance Benefits

**100 %**

Combustion Efficiency

**125 cc**

Engine Displacement

### Key Benefits

- Improved cylinder sealing
- Enhanced engine compression
- Extended engine service life
- Reliable power delivery

## Quality Standards

**NIHAO** **TOP 10**  
Chinese Motorcycle Parts Brand  
10,000+ Items, High Quality, Low Cost

**CG 125 / 150**  
**Nihao Motor**

Durable piston component manufactured to meet or exceed OEM standards for reliable operation.

### Manufacturing Standard

OEM Standard • High Durability • Precision Engineered

## Application Scope

### Suitable Vehicle Types

- Motorcycles
- ATVs
- UTVs
- Scooters
- Motocross/Dirt Bikes
