

Motorcycle Engine Timing Chain

This motorcycle engine timing chain ensures optimal performance and durability. It is constructed from hardened steel for reliable power transmission and extended lifespan.

Product Overview

High-Performance Timing Chain

This motorcycle timing chain is engineered for high strength and durability, utilizing advanced heat treatment processes to ensure reliable power transmission. Constructed with precision-grade materials including 45Mn steel plates and 30CrMnTi pins, it offers smooth operation and reduced wear for consistent engine performance. Designed to meet demanding operational requirements, this chain is a robust solution for various motorcycle models.

Technical Specifications

Material Composition

Component	Material
Plate	45Mn
Pin	30CrMnTi
Roller	20#

Available Colors

Natural • Blue • Golden

Compatible Models	420, 420H, 428, 428H, 520, 520H, 530, 630
-------------------	---

Service & Logistics

OEM Services	Yes
Delivery Policy	Timely delivery guaranteed
